Subject: Historic Papers – Founding of Los Altos Hills

Mayor Corrigan and Councilman Waldeck,

About the papers I left with you a little while back at our meeting – I understand that Mr. Couperus and Ms. Padovan will be double-checking those papers against the electronic scans that have already been digitized, to ensure that you have a complete digital set of all the papers.

When the comparison between the paper copies and the scanned digital copies has been completed, I would be most grateful if you would pass on the complete set of papers I gave you to the Los Altos History Museum for permanent safe-keeping, *with copies to me.*

Sincerely,

Rex Gardiner
